

ABOUT A STEP AHEAD!

Created with your child in mind, *A Step Ahead!*

Our Kindergarten Readiness Program for children turning 5 years old. It is designed for active investigation and child-initiated activities, as well as small group teacher-guided learning. This allows our teacher team to direct and instruct your child in the exploration of the various themed units introduced throughout the school year.

Our daily activities include: literacy, handwriting, math, science, art, games, songs and morning meeting. Your child's learning will be tangible, meaningful and fun all while enjoying a comprehensive Kindergarten readiness experience within our family-oriented caring community.

Each one of us is unique and thereby learns in different ways. Some of us are auditory learners while others are visual learners and our children are no different. Some children learn best in large group settings through observation and listening, while others learn from more intimate small group opportunities with an emphasis on hands-on connections. There are those children who thrive in more structured environments while others prefer a more free-flowing and spontaneous learning experience. Our program will provide both large and small group learning opportunities tailored to meet the collective needs of both the individual learner and the community.

Julie Rabinowitz
In 2006, I joined the ECP and since then have worked with many talented teachers in the 3s, 4s and Pre-K. I have been a Co-Teacher of the ECP's A Step Ahead, Pre-K Program since its inception in 2011. I also Coordinate and lead the ECP's Torah Alive! program. I hold a Bachelor of Arts in U.S. History and Judaic Studies from SUNY Albany and completed a Master's at the Institute of Contemporary Jewry at Hebrew University. I received my Child Development Associate certificate in early childhood education from the National Child Care Council in 2013.

Jen Benalt
I have my undergraduate degree in Early Childhood Development and a Master's Degree in Social Work. In May 2019 I completed my Yoga Teacher training with Breathe for Change. This training focuses on yoga philosophy, body postures, meditation, and social and emotional learning. I am a creative educator that will offer your child the ability to challenge themselves in a supportive learning environment. I recognize that each child is an individual, with their own strengths and learning style.

Stacy Brodsky
I received a B.S. from Drew University and I have a Masters of Professional Studies in Elementary and Special Education from Manhattanville College. Before teaching at the ECP I taught at Westchester Day School and Greenwich Academy. I have worked with students who possess a wide variety of learning styles and have created educational plans that would best meet their individual needs. As an educator and a parent, I know that a compassionate, structured, organized classroom teacher makes ALL the difference in the world.
